Conclusions

- Based on the findings: it seems the youth violence prevention symposium
 - Encouraged the participants to have a positive attitude toward non-violent ways of solving a conflict.
 - Encouraged the participants to accept non-violent problem solving as normative behaviors
 - Increased participants confidence to solve problems without using violence.
 - Increased participants intent to solve problems without using violence.

Lessons Learned

- Should have implemented the youth violence symposium earlier in the day.
- Should have contacted a female guest speaker to come and talk so the participants could have seen a female positive role model
